Foreword

With the coming of New Year we bring out, as before, the ready reckoner compiled by us - **Dial 2001.** This is the seventh consecutive annual edition. From the popularity it has earned by this time, we feel our endeavour has become fruitful.

While compiling this edition we have taken care to keep pace with the changing telecommunication map. We have also tried our best to update its contents. Yet, there still may be some gaps and deficiencies, for which we may be condoned.

Hope our subscribers will continue to partronise this publication this year, too.
